La porta si apre e di fronte a noi si
compie una parte del nostro vivere.

The door opens and in front of us a
part of our life comes alive.

La porte s'ouvre et une partie de
notre mode de vie se réalise devant
nos yeux.

Die Tür öffnet sich und begleitet
uns bei der Ausführung
bestimmter Tätigkeiten, die Teil
unseres Lebens sind.

La puerta se abre y ante nosotros
se cumple una parte
de nuestro vivir.
